

# We See You...

I've seen enough..

## I have to say it out loud...

I believe it is bad manners to speak of personal things publicly (money, politics, and religion). Maybe it's how I was raised. But enough is enough. I've watched what happened in my little sector of the economy (tech) over the last decade and it serves as a microcosm...I watched as "rockstars" came out of nowhere with huge follower counts. Much like [Jim Morrison](#) "magically" arrived on the music scene to 'protest the war' with an already-polished band, two already-complete albums, and a Press Kit. How coincidental that he was also son of [Admiral Morrison](#), commander of the fleet at the [Gulf of Tonkin](#), the [faked event](#) that got us [INTO that war](#).

I saw this same inorganic pattern repeat itself in other industries (machine learning, cryptocurrency, bio-tech, angel investor groups, [Venture Capital](#)) ... And I want you to know:

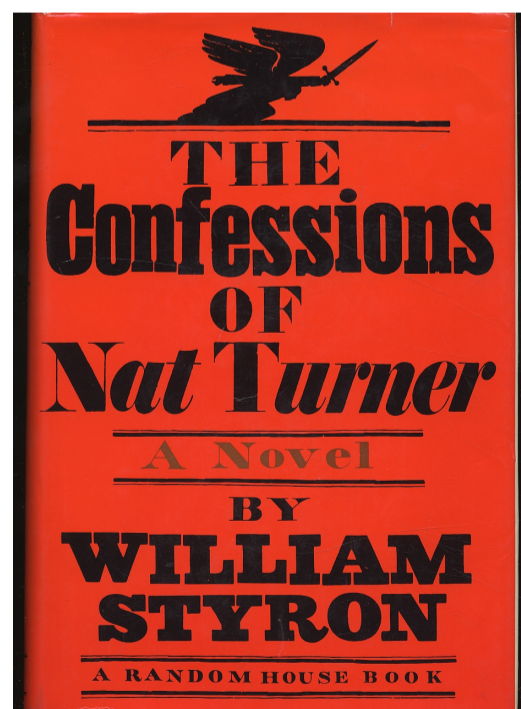

"We see what you're up to...and you aren't going to win."

Here's why:

Take me as an example: Stephen Ridley from Virginia. A lowly black computer nerd. But here's what you may NOT know about me from some database or [Palantir](#) dashboard. I am in the direct bloodline of Curtis Ridley, of the Major Ridley Plantation in Southampton, VA.

yes, THAT Ridley plantation and

yes, THAT nat turner. Both Curtis Ridley and Stephen Ridley sat trial along with Nat Turner...In fact, Stephen Ridley was hung under this very tree...along with Nat Turner.

HORRID MASSACRE. 15

While I don't condone violence, the family history of just \*one\* lowly computer nerd serves as an emblematic example, a case study, for what you neglect to understand about ALL of us. From the Puritans and first pioneers, to the rebellious slaves, to the Cubans, to the Vietnamese...we ALL have ONE thing in common. We are a collection of the World's risk takers.

Regardless of ethnicity, we are the direct bloodlines of those who risked death for ONE THING: Freedom. We'd rather have death than subjugation. People forget that the Statue of Liberty is a freed slave. People forget that she originally held broken shackles, not a tablet. People forget about the broken chains at her feet. We know that these shackles were broken with force and not opened with permission.

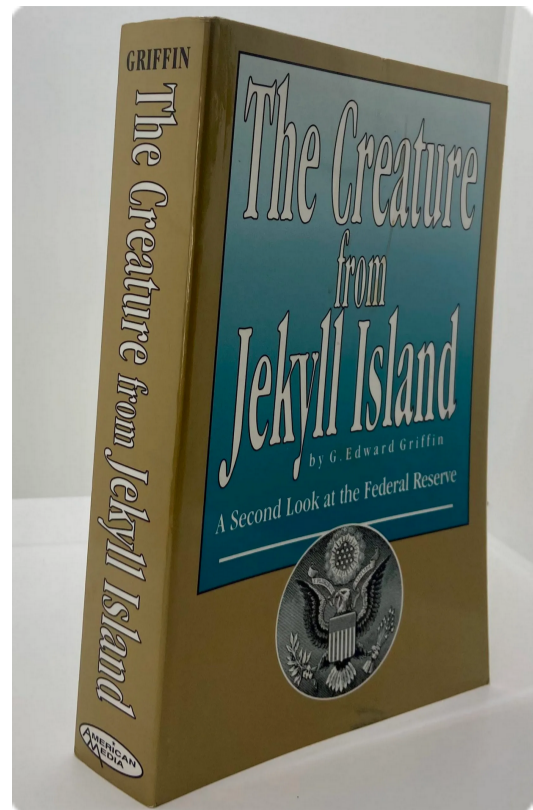

You're not gonna get your Frankfurt-school postmodern faux-utopia because...we see you. We're just quiet about it. We see you by your moves. This isn't a case of [pareidolia](#). We see all of it happening simultaneously: Castillo in Peru, [Lula](#) in Brazil, [Gustavo Petro in Colombia](#), Trudeau, the [Sao Paulo Forum](#), the July 2019 B.I.S. "unconventional measures" paper and the [uncanny timeline](#) of the repo-market implosion of late 2019. AND the pandemic economic shutdown to shortly follow.

In the summer of 2020, we read Franklin Templeton's watershed ["They Blinded Us From Science"](#) whitepaper.

We watched the heroic sacrifice of Minister Abe for his people.

We see the sprawling non-profit/NGO [archipelago](#). We see the Atlantic Council, the Council on Foreign Relations. The "Foundations": Carnegie, Rockefeller, Ford, Pew Charitable, Annenberg, et al.

We know income tax was ruled unconstitutional TWICE by two supreme courts before the 16th Amendment in 1913 breached the gate. We know The Federal Reserve Bank is neither a Bank, [nor is it Federal](#). And we've watched it from Jekyll Island to Bretton Woods, up thru the [ignored audits](#) of Fort Knox, and all the Jackson Holes that followed.

We know when asked his greatest accomplishment of his two Presidential terms, Andrew Jackson said:

"I [killed the bank](#)."

We see the "Institutes" (Santa Monica, Esalen, Rand, Aspen, Tavistock, et al). We know about Kissinger, Cecil Rhodes' round tables and Zbigniew Brzezinski's equilateral triangles, and we hear his daughter [Mika](#) singing her [siren songs daily](#) on television.

We know about Mayer [Amschel](#) AND Meyer [Lansky](#) AND Mayor [Lightfoot](#).

We know who "[Big Tommy](#)" D'Allesandro's daughter is. We've read the [FBI Vault](#). His daughter (all by herself) [miraculously outperforms](#) the world's largest hedge funds, with their legion of supercomputers and draft-pick of graduating math wizards.

We know the International Rules Based Order, actually doesn't follow any set of established rules. We know China's Belt & Road is just a better IMF. NEW and improved, fat-free, now with more debt-trap!

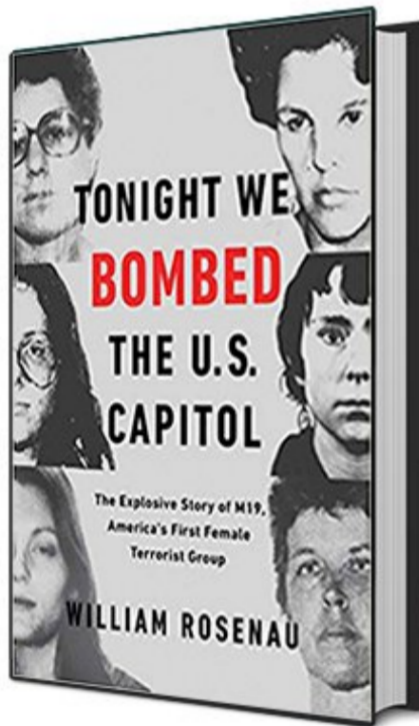

We see Tigray Peoples Liberation Front. And we see who runs the WHO.

We see Adolf Heusinger at NATO, Kurt Josef Waldheim at the UN, and we see who ran NASA. We know why [Tom Lehrer's song](#) ends with: "I'm learning Chinese said Werner Von Braun"...

We know what Leonard Cohen meant when he sang "Everybody knows, the war is over. Everybody knows [the good guys lost](#)..." ...we remember that when we see NATO, the UN, UNESCO, and Aldous "oggie" Huxley (and more tellingly) his dad and [brother Julian](#).

We've read through the litany of historical

"Operation FILL-IN-THE-BLANKS" all caps. We know that after the [CHAOS](#) in the [UNDERWORLD](#), the [BLUEBIRD](#) became a [MOCKINGBIRD](#) with a [PAPERCLIP](#) and a [GLADIO](#)lus in its beak. We see the universities: Stanford, Columbia/Barnard, M19 at the Capitol, [Adorno](#), Open Societies, Popper, Bernays, Alinski, the corrupt D.A.s (you really made it so obvious with Chesa Boudin [literally born into](#) the Weather Underground).

We know [ESG](#) is just "trickle-down" corporate social-credit scores, and we see them on trading platforms, so we know they're already here. We know about [Blackrock's "going direct"](#), and what [Aladdin](#) actually does.

We see your thinly-veiled divide-and-conquer (gender/race/sexuality) strategy. We saw your firehose of SSRIs into the guts of the People. (We saw you [trial run Prozac](#) in the same exact city Aladdin was hosted.) We saw what followed these reality-altering drugs: the neuro-linguistic programming tricks, "[nudges](#)", and shibboleths blasted from the media-megaphone. And behind it all, we see the [Sacklers skating free](#), off into the sunset.

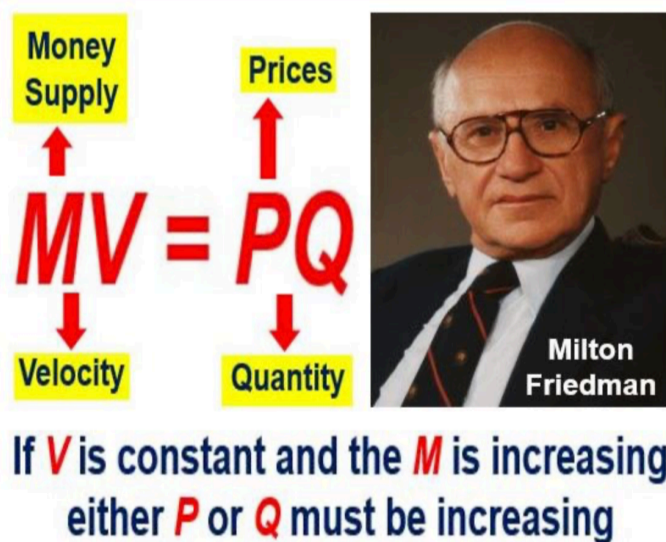

We see the [public-private revolving doors at the FDA](#), CDC, NIH and every three-letter, whirring friction-less like perpetual-motion turbines. If we could only tap that as a power source we might be able to sidestep your fake incoming "energy crises" and your ["coming age of scarcity"](#). Dalio (amidst all his complicity) called it all out in "The Changing World Order" last year.

We see the 10s and 2s and the yield-curve, and we know, for the first time in American history, there isn't enough money to pay the interest-rates on the bonds. We saw the ["Cashless society"](#) push. We remember the [Amero](#). And we see your ostentatious cryptocurrency "meltdowns" aka [crisis initiation](#)" in an inevitable push towards [CBDCs](#) and [ID2020](#)-style Digital IDs. We know Russia already rolled out their [digital dollar](#) and [bio-pass](#).. We know the [FRED M1 money stock](#) measures the amount of money in circulation. We watched it hockeystick in 2020.

You blamed it on savings accounts becoming checking accounts in your model. Bullsh\*t. It doesn't cover the delta.

# Monetarism

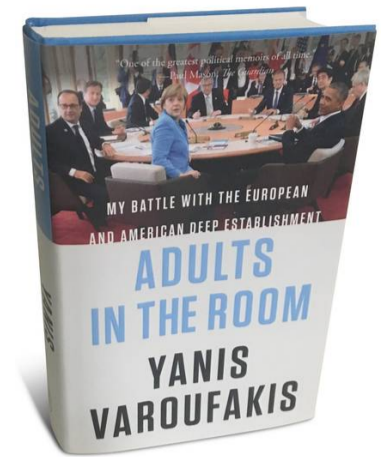

We know that 8 out of 10 dollars in our wallets and bank accounts today were freshly printed in 2020 and 2021. Yet you keep lying about inflation root-cause like we are incapable of basic algebra.

We've done manual DD and TA on market assets. We've penciled out intrinsic value using crude spreadsheets and with custom-written code. So we know the markets are in a hallucinogenic fever-dream. Untethered. A financial [Ukiyo](#) "floating world". We know it isn't going to be a soft-landing.

We watch CPI and PPI, we see the intentional [demand-destruction](#). We see the sovereign debt storm cloud looming on the horizon. We know the petrodollar is on the ropes. We

see you trying-out the "pharmadollar". We know what it means if the U.S. loses the reserve status and thus, the ability to monetize the debt. We see [BRICS](#) waiting in the wings..

We read Finance Minister Varoufakis' journey and heard with resounding clarity Larry Summers' warning to him in the restaurant, in the early chapters of that book. It changed our worldview.

We know about "stakeholder capitalism" and your other attempts to search for a new world economic model. We know places like Chile (with their "[NeuroDerechos](#)") are test-labs for elements of the new technocratic neo-liberal model dating all the way back to Allende and [Project Cybersyn](#).

We know China's economy MIRACULOUSLY turned around after [Deng Xiopeng's secret dinners](#) with Brzezinski.

We know that China (under the CCP) is the testlab for the "technocracy" part of your model. (much to the chagrin of the [Baixing](#)). We know the CCP (with your early investment) built your very first technate. And we know you're betting big on it. We see you moving house. We watched the "tech transfer" disguised as cybercrime, and we see the "capital transfers".

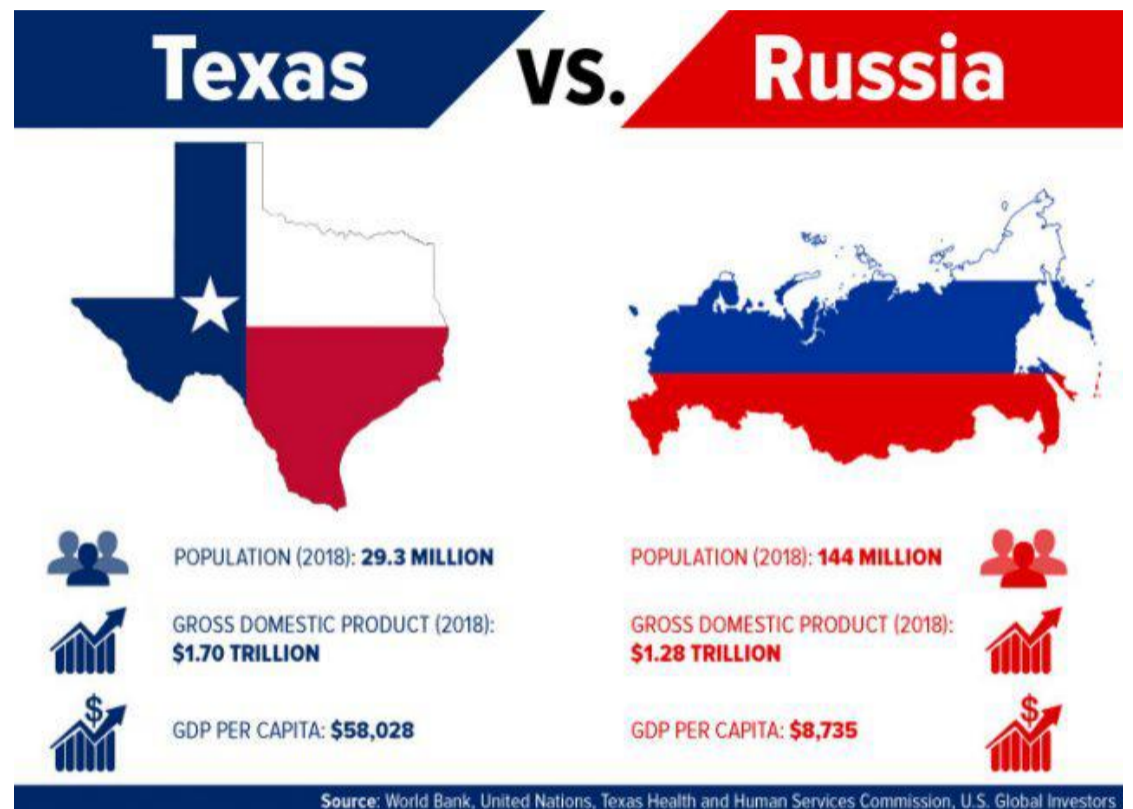

We know the World's Richest Man, Jack Ma, wasn't likely disappeared for criticizing his party as was claimed. He was most likely disappeared for this statement:

"Basel, more like a seniors club, is about solving the problem of an aging financial system".

We read the Bund Finance Summit's translated transcript dawg! He spoke ill of the [B.I.S.](#) and suggested that China break away. And just like that, *poof* he was gone.

We know that despite your condescending Cold War-era action B-movie narrative, Russia has less GDP than a SINGLE U.S. State, and not even our wealthiest state at that.

We know you are distracting public opinion from the real threat in a desperate attempt to avoid a [Thucydides Trap](#) with the World's second largest economy.

We've read the "sustainable development goals". They ironically don't look sustainable or like much of a "development" for anyone other than banks and private equity. We see Agenda2030. And Antonio Guterres' announcement to "[accelerate it](#)". We know [NACs](#) are just greenwashed [SPACs](#): new and improved, fat-free, now with extra fiduciary-f\*ckery!

We hear you yelling "build, back, better" but louder than that is the deafening silence as no one asks the obvious followup question:

"Build back **from WHAT?**".

How prophetic to have built a policy platform for some unspoken calamitous event that has yet to transpire.

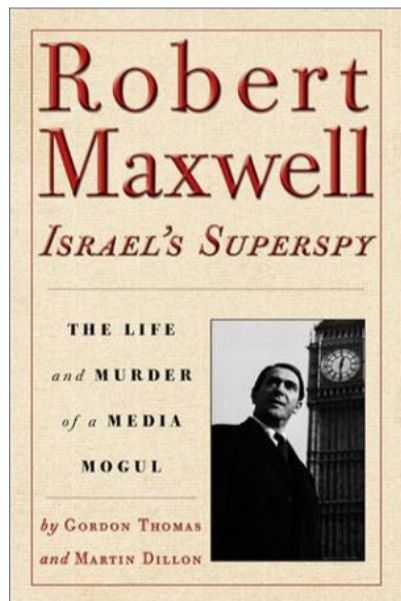

We know that the pace of societal advancement is proportional to the amount of cheap energy available to the economy. We know that for technology to evolve, we must eventually abandon fossil fuels. But we also see your decades-long campaign to intentionally steer public opinion away from the miracle energy solutions that we already possess.

We know that a SINGLE gallon of gas currently equals 482 hours of human labor. We know [Aileen Getty](#) funds the activist groups committing viral vandalism. We also see the climate czar's [Heinz soup](#) can in their hand as they do it. WE AREN'T STUPID! We SEE what you're up to.

We know who Ghislaine's dad was, and we know that she inherited the family business. We know [Jeffrey](#) was likely just "[the help](#)".

We can see you dawg!

Just.

Stop.

We know the "Twitter Files" are yet another [limited-hangout](#). No mention of the [Marco Polo Laptop Report](#) or [Miranda Devine's book](#)? All theatre. We know RocketMan is [grandson of the leader of](#) Canada's "Technocracy Party". We know his newest project is to pied-piper the dissidents and the political-right into falling in love with the "[American WeChat](#)" that Twitter will likely become. Just in time for digital IDs and CBDCs. The timing is pure coincidence. Utter happenstance.

We saw the FOIA documents from 1967 that told us where the term "[conspiracy theorist](#)" [really came from](#). If true, it is yet another clever neurolinguistic programming trick. A [Fnord](#). It worked so well for so long. We know that the "culture wars" are just the newest chapter in the relentless [Bezmenovian](#) demoralization campaigns.

We saw the 2013 NDAA which disabled the proverbial safety-switch that the [1948 Smith-Mundt Act](#) put on the proverbial gun. Smith-Mundt prevented U.S. citizens from being targeted by government propaganda campaigns. We are living through the [HyperNormalisation](#). WE SEE ALL OF IT.

We eye-rolled with incredulity as search engines started warning us in 2020 that "the results are changing quickly". Like a foreboding "under construction" sign. As if we'd accidentally gotten off the elevator on the 13th floor. As if America was somehow under renovation.

We even see the small things like the Lenin bust in Schwab's study at the WEF and the photo with his mentor Kissinger. We see the Club of Rome. We know that the Former Google CEO Eric Schmidt joined Kissinger's org and is set to inherit his throne. Results wont have to "change quickly" when our favorite search engine has transformed into a [ChatGPT](#)-style AI chatbot that has a penchant for lying through omission. We see

it all coming. We see your "[nudge units](#)" pushing public trust in "AI".

We know that even the WEF itself is a "[Limited Hangout](#)". They're just the annual conference and the "Sales team" with hardly as many Swiss legal protections as the [B.I.S.](#)

We see the "Lenin award" to Currency Comptroller nominee Omarova as she suggested an end to "[private bank accounts](#)". She [did it with a straight face](#). In America. In 2021. At the Senate, while most Americans slept through it..

You're just so flagrant.

We saw Warhol's Mao at the NYSE CEO's (Loeffler) residence *AND* Mao yet again above Harold Ford Jr.'s fireplace. Sure, it's a dubious story about a silly painting but it's also a subtle reminder that you regularly play *BOTH* sides of the Hegelian [dialectic](#).

We know you cant help yourself: You just gotta throw your gang signs. But I want you to know that we see them.

We EVEN see the words "gene pool" in [Article 16](#) of the Ukrainian constitution. We know about Stepan Bandera. We know Ukraine is a monetary dead-drop. Dual purpose. We get it, we know you have to protect the [Mackinder "pivot point"](#) but making it a monetary escape-hatch (while [rejecting oversight proposals](#)) is just tacky. Flagrant. We see you "moving house" dawg!

We know the historical significance of Antifa and what it portends. We know it isn't "just an idea" or "a myth" despite your relentless attempts to convince us otherwise.

We heard Walter Ulbrecht's words about the Berlin-Wall in 1961. We know despite the cutesy American name, it was actually EAST Germany's "**ANTIFA**schistischer" wall.

We know history dawg. You cant jedi-mind-trick it away.

WE SEE ALL OF IT. We've read the writings of brave Americans like Quigley and Patton....thorns and all. We been through the [Edward Jay Epstein](#) obsession phase. We've devoured Thomas [Sowell's catalog](#) and marveled at [Susanne Triester's](#) hand-drawn "[Hexen](#)" [infographics](#). They aren't just art, they're indispensable STUDY GUIDES.

We SEE YOU.

We know about [Stanley Levison](#), MLK's speech writer. We know where he [served as Treasurer](#). We know who [Marrell McCullough](#) worked for, kneeling [like a chaplain giving last rights](#) to a fallen MLK while everyone else pointed at some irrelevant roof.

We know about Julius & Ethel Rosenberg and [Abel Meeropol](#) and their roles in the Harlem Renaissance..

### **Using my people yet again.**

We know Ho Chi Minh lived in Upper Manhattan intermingling with Marcus Garvey before heading to his overseas fame.

### **Using my people yet again.**

We watched you rebrand the Red Salute as a symbol of Black solidarity.

### **Using my people yet again.**

We know the BLM founders refer to themselves as "[trained Marxists](#)" trained by none other than [Eric Mann of the Weather Underground](#).

### **Using my people YET AGAIN.**

WE SEE IT ALL DAWG! WE. SEE. YOU!

We saw the [recent recruitment videos](#) from [the Lt. Colonel's](#) old stomping grounds..

And we know that the [Lt. Colonel's](#) mom (Marian Dorothy Elisabeth Ford) set up Pacifica Foundation so that (among other things) Amy Goodman could "guide" us for decades on all matters of "democracy".

We've read Thomas Pynchon and we see how he smuggled the truth past you. Each proper-noun, a hint, a literary "[verbum sap sat](#)". Each book an account of a unique American travesty, the truth sealed tight with allegory and set adrift like a message-in-a-bottle cast into your ocean of lies. Your [ret-cons](#) are super-obvious homie... so we know that many of you aren't actually that smart, and you certainly aren't "getting away with it". That's your hubris blinding you.

We, however, are not blind. We see clearly that you underestimate the perspicacity and the Blood of the American people. Sure, a minority of us may be distracted, aloof, or incurious, but the rest aren't. We're just quiet. Your little color Revolution is masquerading as the [Fourth Industrial Revolution](#) but it's clumsily triggering a "[Fourth Turning](#)".

You aren't going to get your little [neo-feudalist](#) technocratic Oligopoly to usurp a Free democratic republic. You **WILL NOT** hypnotize us into believing that Freedom is somehow selfish.

We **WILL NOT** be lullabied back into slavery even if it's disguised as a shiny new smartphone-app or a convenient pill.

You **WILL NOT** succeed in subjugating the World's free people... to [quote from Chairman Xi Jinping](#) "*Anyone who dares to do that will have their heads bashed bloody against...*" the unflinching Will of FREE People... (Can you believe the President of our Country's greatest adversary threatened us with these words and our media was mostly silent about it?)

In conclusion, and to book-end this diatribe: My name is Stephen Ridley and I am a direct descendent of Curtis Ridley at Nat Turner's rebellion in Virginia and I believe that [the words on the Virginia state flag](#) were chosen for good reason. They are a warning to the Usurpers and a reminder to the Free.

**We know** there is a common thread that binds us all.

**We know** this thread transcends ethnicity.

**We know** we are the descendants of the World's risk-takers.

The Free People.

It's not us you need fear, it's our ancestors. And they're pissed.

My name is Stephen Ridley, direct descendent of Curtis Ridley at Nat Turner's rebellion.

I have irreverent Blood. Rebellious against tyranny. And there are millions like me.

**I believe** that you think you've already won.

**I believe** you haven't. And won't.

**I believe** that Free People are stirred by their ancestry and will awaken with an Earth-shaking indignation to once again claim to their birthright.

There.

I said it.

P.S. CISA is unconstitutional.
